

# POSTAGE STAMP PROTEST

## Design Template

Instructions: design a tiny protest sign (in the form of a postage stamp). To submit for possible inclusion in a future batch of Postage Stamp Protest stickers, email a high-res scan to [lea@luckypennyparlor.com](mailto:lea@luckypennyparlor.com), or send to Lea in the mail. (Do not fold your art!)

### Techniques:

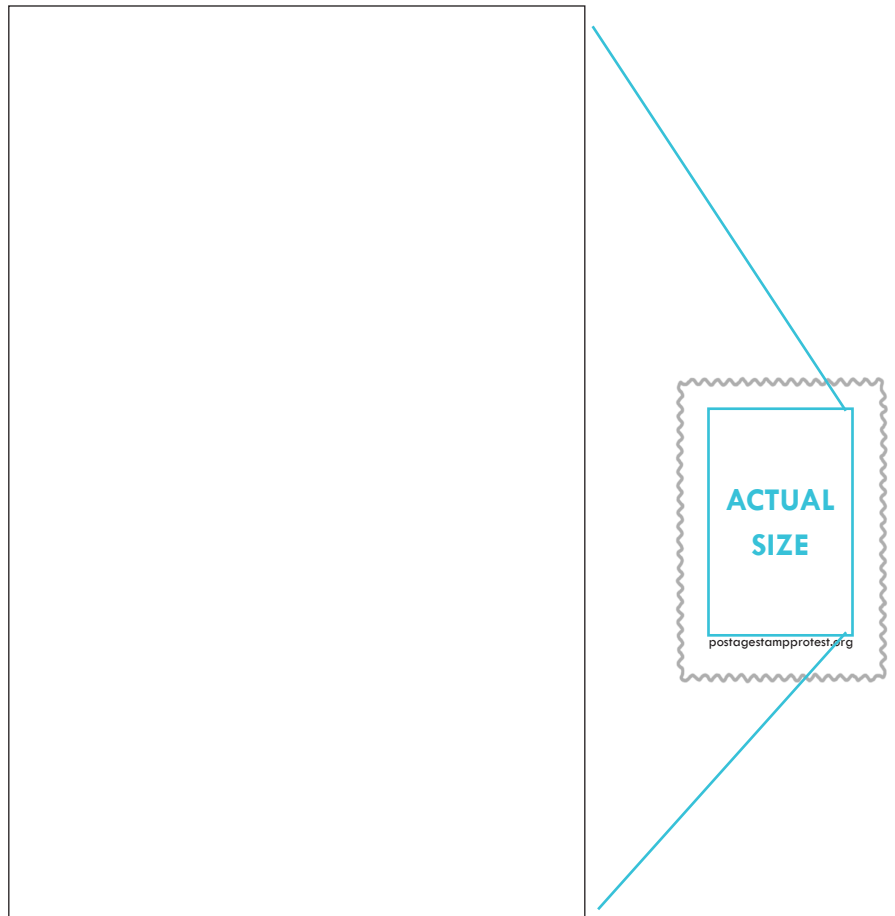

- print this file and draw into the rectangle with any medium you like: crayons, markers, paint, etc.
- use your own paper or other medium and create a design that is 3" x 4.75"
- design digitally

### Design ideas:

- choose a theme or issue
- create a portrait
- draw a symbol or other image
- design a text-based stamp with bold, large lettering
- combine the above elements
- design this tiny protest poster to be something that you would feel good and appropriate holding in the streets or hanging in your window. It should reflect who you are and what you care about.

### Please do...

- fill the entire box with content
- keep in mind that your art will be shrunk to postage-stamp size! I recommend bold lines, shapes, and colors. Fine detail will not translate well to the postage stamp format and size. To test your illustration, look at it from a few feet away. Does it still look good?

**Please note:** submitting your art is also giving your permission to print and distribute it for free. Postage Stamp Protest is a non-profit project. Thank you for the gift of your design, and watch your mailbox for some free stamps! Please email Lea your mailing address with your submission.

**Optional:** use one of the following color palettes:
